

## Accessibility Statement

“This accessibility statement applies to the Visit South Derbyshire website [www.visitsouthderbyshire.co.uk](http://www.visitsouthderbyshire.co.uk) .

The website is maintained by South Derbyshire District Council. We want as many people as possible to be able to use the websites. For example, that means you should be able to:

- change colours, contrast levels and fonts using browser or device settings
- zoom in up to 400% without the text spilling off the screen
- navigate most of the website using a keyboard or speech recognition software
- listen to most of the website using a screen reader

We’ve also made the website text as simple as possible to understand.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

We know some parts of this website are not fully accessible, for example:

- you cannot modify the line height or spacing of text
- most older PDF documents are not fully accessible to screen reader software
- you cannot skip to the main content when using a screen reader
- insufficient colour contrast in some areas

The Equality and Human Rights Commission (EHRC) is responsible for enforcing the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018 (the ‘accessibility regulations’). If you’re not happy with how we respond to your complaint, please [contact the Equality Advisory and Support Service \(EASS\)](#).

South Derbyshire District Council is committed to making its websites accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

The website has been tested against the Web Content Accessibility Guidelines (WCAG) 2.2 AA standard. This website is partially compliant with the [Web Content Accessibility Guidelines version 2.2](#) AA standard, due to the non-compliances listed below:

- Some images do not have a text alternative, so people using a screen reader cannot access the information. This fails WCAG 2.2 success criterion 1.1.1 (non-text content).
- Carousels do not have pause or stop controls
- Lack of keyboard access to menus and search functions

This statement was prepared on 24 January 2026.
